

WATCHET URBAN DESIGN STRATEGY

WORKSHOP QUESTIONS – THURSDAY 27 JUNE 2024

DISTRICTS

- Do you recognise these different districts?
- Would you break Watchet down into a series of different neighbourhoods?
- What makes each one special?
- If the paper mill site is redeveloped, what sort of new district should it be? How will it complement other areas?

PATHS

- Which other links, paths and connections can be added to this drawing?
- Is there a need for new or improved links that can help to better connect the town?

EDGES

- Which streets do you think are well-defined and offer a positive experience?
- Are changes needed to the Liddymore Road local centre to make it more welcoming and accessible?

LANDMARKS

- Are there other existing local landmarks that can be added to the drawing?
- Is there scope for new landmarks? Or does Watchet already have a good mix of landmarks, both large and small?

NODES

- Are there other existing civic spaces that can be added to the drawing?
- Is there scope for new focal spaces in future? Or should the urban design strategy be about making existing spaces better?

THE DRAFT URBAN DESIGN STRATEGY

- What do you think? How can this be revised, updated, improved and refined? We want to hear from you!
